

Stefaan Vossen: "Your health and well being is our objective!"

The Chiropractic Network Ltd

One of Warwick's most prominent disused buildings is now back in business - thanks to the enthusiasm and vision of a Belgian chiropractor!

When Stefaan Vossen first spotted The Old Post Office in Warwick's Old Square, he saw through the years of neglect and deterioration and, instead, visualised a state-of-the-arts chiropractic clinic.

Now the second floor of the historic three storey building has been transformed into The Chiropractic Network and Stefaan has been delighted by the response of people in the town.

"I think people are really pleased to see such a beautiful building back in use," says Stefaan. "I have had some great comments from local business people as well as from members of the local council and members of the public."

The son of a doctor and a nurse and one of 14 chiropractors in his family, Stefaan trained as a physiotherapist at the University of Ghent, in his native Belgium, before continuing his studies at the Anglo European Chiropractic College (University of Bourmemouth) receiving a BSc, MSc and then a DC (Doctor of Chiropractic) from the European Chiropractic Union.

Since then, Stefaan has worked at clinics in Warwickshire and London and has established one of the UK's most thriving chiropractic clinics in Rugby, Warwickshire.

Stefaan already looks after a large number of athletes and sports people (both individually and via club and

team associations) including professional boxers, rugby and football players and golfers, and a number of Britain's hopeful 2012 athletes.

Presently working at the Warwick clinic two days a week, Stefaan is hoping to move all his work to the Old Post Office site over the next year.

But, besides the opening of Warwick premises, Stefaan is also busy organising his wedding to long-time partner Angela, which will take place in August, "It is a very busy time for me but that's the way I like it," he explains. "My life revolves around my work and my family (he and Angela have two children each from previous relationships), when I am not concentrating on one I am concentrating on the other - that's just the way I am."

Enjoy life... pain free!

PAIN FREE... GUARANTEED

The guarantee covers the cost of care and the results are guaranteed

Stefaan's philosophy is simple. "Patients often come to me for the first time when they're in crisis - in pain or in desperation, because they feel they've been everywhere for help, but have got nowhere. Firstly, I try to really listen to my patients and keep digging and asking 'why' until the cause of the problem becomes clear. Sometimes they've never been asked these important questions before".

"When you understand the different components of health and well being, these questions and answers usually tell you everything you need to know, in order to diagnose and decide on what treatment is needed."

Please don't take my word for it, my patients speak for me... (for many more testimonials please visit www.tcpn.co.uk)

Back:

My condition has improved vastly since my initial diagnosis at the Rugby Clinic. I'm now pain free, my condition has all but cleared up and I cannot speak highly enough of the effective treatment I receive at this clinic.

D.T. - Hillmorton, Rugby

Neck Pain

Pulling in the neck was the worse part before coming to chiropractor. Now I have no pulling or aching neck. My posture has improved and I feel I can do things without thinking about it before hand. The words I would use are 'more alive' not taking pain relief tablets and no heat rubs, excellent!

H.G. - Crick, Northamptonshire

Lower Back Pain and Shoulder Pain

I no longer have to put up with pain when at work! Stefaan has made the treatment almost a pleasure with his professional and cheery attitude, thanks to all.

A.T. - Bilton, Warwickshire

Sleeping is a lot more comfortable and my posture has definitely improved. No headaches or dizziness. Chiropractic care has been a major success.

D.E. - Kibworth, Leicestershire

Dr Stefaan Vossen help me improve!
